Answers will vary

Choose a place in your neighbourhood and describe how you can get there from your house. Try and use some of the verbs from the last exercise.

To get to Korien Station from my house, you need to turn left once you leave the front door, then head straight down the street. After walking for about five minutes, you should see a tunnel that leads to the park. Once you come out of the tunnel, take a left at the first road and walk another five minutes. Korien Station will be directly in front of you.

Imagine you are on a desert island. How would you build a raft with the following materials:

6 planks of wood

Lots of rope

A large bed sheet

A large balloon

First, I would tie the pieces of wood together with the rope. Then I would place the bed sheet on top of the wood, so that water won't be able to get through the gaps in the planks. I would blow up the balloon and tie it to another piece of rope, so that a ship will be able to see me floating in the ocean.
