5. It needs an oil change. *The oil needs to be changed.*
6. Your head needs examining. *Your head needs to be examined.*

How much will it cost before Benito can drive his car on the road? Do you think it is a good investment?

Answers will vary.

It will cost a total of \$8,000. He paid \$3,000 for the car and he will need to spend another \$5,000 to fix it up. If you like old cars and like to work on them yourself, it would be a good investment. But it is easier to go to the dealership and buy a new car.

Imagine this Answers will vary.

Imagine you have the following animals as pets. What would you need to do to take care of them? What kind of food, housing and exercise do they need?

Dog: A dog needs to be fed meat and bones every day. It needs to be walked once a day. It needs a kennel where it can sleep.

Fish: Fish need to be fed fish food once or twice a day. Fish live in an aquarium so they don't need to be walked. But the water in the aquarium needs to be kept clean.

Cat: A cat needs to be given food and water every day. Its litter box needs to be cleaned every day. The cat needs a good place to scratch, and it needs to be played with.

Alligator: An alligator needs to be fed a lot of meat or chicken every day. It needs a big pond or pool to live in, and there needs to be a high fence around the pool to keep people out.

Elephant: An elephant needs a lot of trees and leaves every day. It needs to have a lot of space in which to move around.

How about you Answers will vary.

What needs to be done in your country to make it a better place?

In my country the roads need to be improved. A lot of our roads are gravel roads, and the gravel can break car windows when cars are passing each other. In the winter there is a lot of snow and ice on the roads, so there needs to be a lot of snow removal equipment to keep the roads clear.
