Use one sentence from the left and one from the right to make longer sentences. Use who/whose/which/where when necessary.

Sam works in London.
Susan is an accountant.
I live with three people.
I'm going to catch the train to Nagoya.
My flight was delayed.
This is my sister, Jenny.
My company has hired a new president.
The kids were playing in that room.

We saw her car parked outside.
It meant I could stay in a hotel for free.
London is very cold.
I went to school with him.
My mother lives there.
It means we can afford a big place.
It means it's a mess now.
The job pays very well.

Sam works in London, where it's very cold.

Susan is an accountant, which pays very well.

I live with three people, which means we can afford a big place.

I'm going to catch the train to Nagoya, where my mother lives.

My flight was delayed, which meant I could stay in a hotel for free.

This is my sister Jenny, whose car we saw parked outside.

My company hired a new president, who I went to school with.

Imagine you are showing a visitor through your house. Show them five of your belongings (picture, musical instrument, souvenir, etc.) and tell them something about them.

This fan, which I bought when I went to Kyoto last year, is my favourite souvenir from Japan. This cup is from my mother, who made it for me. This trumpet is from Austria, where I went after Kyoto. I got this mask in Africa, where I lived for a year. This is a picture of the Robinsons, who lived here before me.

Now imagine you are introducing the visitor to your family. Tell them something about each person. He is my youngest brother, who works in finance. He lives in LA, which is in California. I visit him every year when I have enough free time. This is Jean, who is my mother. She retired when our father passed away. She likes to paint when she has free time. She makes cookies every day, which are the best in the neighborhood.
