What is your favourite sport? Explain how to play it to someone who has never heard of it before.

I like tennis. In tennis, one player stands on each side of a net. To start the game, you throw the ball in the air and then hit it with your racket so that it flies over the net. You must make the ball hit the ground within the lines on your opponent's side. They will hit it back to you. When someone misses the ball or makes it fly outside the lines, the other person gets a point.
